Side Hustle Stack

Thank you for adding to the Stack! Below are some guidelines to help you correctly upload images onto our platform

Company logo should be high-resolution

Logos represent your platform best when they aren't pixelated, blurry, etc. These errors usually happen when an uploaded image is too small or isn't the original file (e.g. a screenshot). SVG files and paths are always reliable; JPG images bigger than 1000 × 800px generally work best

Side Hustle Stack

Side Hustle Stack

✅ Clear logotype — font has no signs of graininess

❌ Logotype exported too small — font is very fuzzy

Company logo should be background-free

Please submit a transparent version of your logo. PNG images work best
